

NBYFC 2010 WEIGHMASTER AGREEMENT

As a weighmaster in the weight room, you are the policy maker, mediator, and caretaker of your Affiliate Association. As such you must preserve and protect the Affiliate you have been elected to serve. Weighmasters DO NOT have field privileges during games.

As a weighmaster you should understand that the needs of the overall program are as important as the needs of your individual Affiliate Association. You should also understand it is extremely important to our youth that every participating Affiliate Association complies with the rules established by the said Affiliate Association and North Bay Youth Football & Cheer.

As a weighmaster of an Affiliate Association you are part of a team with the following areas of responsibilities:

- A. Teams and individual players should not be encouraged to arrive at game sites more than one hour prior to their first scheduled weigh in.
- B. Coaches are responsible for preparing their teams for the weigh in process.
- C. In the weight room players are expected to disrobe and quietly line up. They are not to be yelled at unnecessarily, but to be firmly instructed to line up in alphabetical order for the weigh in (older/lighters first).
- D. Weighmasters will be provided with a Play Allotment Rule (PAR) sheet prior to weigh in.
- E. There will be only two weighmasters in the locker room at a time. An exception will be only for purposes of training.
- F. Associations may have two weighmasters per team, but only one will be authorized in the weight room during weigh-ins.
- G. League Officials, Association Presidents and weighmasters are the only affiliated personnel allowed in the weight room.
- H. A league Administrator may supersede any weighmaster in the weight room for cause.
- I. An Association President may supersede their own weighmaster for cause.
- J. Weighmasters will annotate the player cards for the opposing team. The other weighmaster will be responsible for lining up the players for weigh in.
- K. The weigh scale will be in view of both weighmasters at all times.
- L. Coaches are forbidden to interfere in the weigh in process.
- M. As stated in the rule book it is traditional for the home team to weigh in first.
- N. Association Presidents may alter the weigh in sequence upon mutual agreement.
- O. No team or individual will weigh in prior to the established weigh in time. Exception: Any player who still requires his/her weight certified after jamboree may be weight certified by an NBYFC League Official at any time prior to or after, any team weigh in prior to their game. Once that player is weight certified, the player card is stamped and dated. That player will not be required to re-weigh before his/her game. However, player must remain with the team during their teams weigh in.
- P. Coaches may be allowed to bring their teams in prior to the weigh in, but they must leave the locker room or weigh in area prior to the start of weigh ins.
- Q. After the last player has weighed, coaches may return to the locker room to assist their players dressing.
- R. Each team is required to have 15 minutes after weigh in to warm up prior to the initial kickoff. Warm up time cannot be waived.
- S. No football player shall participate in any game if his/her weight has not been certified. If no certified weight stamp is visible on the player card, that individual has not been certified. Weighmasters that allow a player to participate without a weight stamp shall be suspended.
- T. Late players shall weigh in after both teams have completed weighing in. As an administrator, you owe the children the safest drug free, alcohol free, quality learning environment your Affiliate Association can provide for the youth within your program.

You expressly agree that your position as a weighmaster within NBYFC is a privilege not a right. NBYFC, its affiliates, or agents has the right to withdraw such privilege at any time. You hereby agree to defend, indemnify and hold harmless NBYFC, its affiliates and/or their respective directors, officers, or agents from and against all claims and expenses, including attorneys' fees, arising out of your participation as a weighmaster.

I have read and understand the affiliate Association and NBYFC philosophies and rulebooks. I understand my name and fingerprints will be forwarded to the Department Of Justice for a records check. I agree with the objectives in the above publications and will, at all times, set a positive example for the youth that will lead to their development as good athletes and responsible citizens.
